

testimonials

I had at least three quotes for my drive before I contacted Impress Paving as I wasn't too sure what I should be paying for a job of this nature. I have to say I was pleasantly surprised when this local company was the most competitively priced as cost was one of the biggest factors in my decision. After a lot of deliberation their friendly staff enabled me to make a decision based on my specific requirements. Once I had agreed to go ahead I was given an approximate date to commence work, five days prior to this, the date was confirmed. I was kept informed of every stage of the process and they kept mess down to a minimum. Any debris was removed as and when it was created. I am really pleased with the final look and finish which was completed in ten days.

Well done Impress Paving, who certainly live up to their name.

I highly recommend them to any prospective customer who I believe will be as satisfied as I am.

Regards D Lashington

We would like to say thank you for the professional manner in which you have dealt with the laying of our driveway. We are delighted with the end result.

We also appreciate the time you spent discussing with us, the various options that were available so that we could make the right choice, as it is not something you can decide on straight away. You were very patient.

The decision was certainly the right one. It has enhanced the look of our bungalow and the pattern and colour are perfect. Thank you once again and we will not hesitate to recommend you to friends and family.

Yours sincerely Janet and Stuart Clowery

Ian and myself just wanted to say thank you for the work you have done on transforming our driveway. The workmanship is superb and the amount of comments we have had from neighbours and friends is amazing.

Just wanted to let you know how pleased we are and to thank you for a first class job.

Regards Ian and Suzanne Spencer

Impress Paving did exactly as they said they would do, initially they came out to give us a free quote and reassured us that when they set out to do the works it would be done in a timely manner, although sceptical I agreed a couple of quotes and weeks later, as well as

taking up their offer, of speaking to previous customers at their home, which put me at ease. If there was any issues they took the time to listen and explain the various differing techniques used and as complicated as it was, I actually understood the majority of the process even before the works commenced.

Whilst undecided on the pattern and colour for our drive the guys made all the decision making feel quite easy, with colour boards, actual photographs of previously completed driveways as well as giving general advice on the pattern that would better suit our needs. All in all a very pleasant experience, with I must say NO HARD SELL!! Very commendable.

The whole process was so easy and was so worthwhile, as people now pass my house I see them looking and admiring the drive, I am so glad I choose this company as I know other people who have asked for their number and have been equally as pleased with the results.

Impress Paving is a credit to the building trade, I cannot speak highly enough of their work ethic and craftsmanship.

Thank you very much Ms C Lalor

choose the right path

A beautiful new driveway, path and/or patio makes such a difference to any home, aesthetically as well as in monetary terms.

Impress Paving offer a wide variety of paving styles to suit any property, be it modern, traditional or contemporary. Our complementary service - surveyor will offer advice on design, layout including all technical aspects of the installation.

Our company offers a wide range of patterns and colour options available to appeal to any taste; it includes a weed free, low maintenance paving that will make your life so much easier adding value to your home.

walk with pride

Concrete has long been used for road surfaces and driveways but in the 1950's the Americans started to develop decorative paving techniques, which at first mimicked the character of individual pavers and more recently became a unique form of hard standing in its own right.

Patterned imprinted concrete, works by stamping moulds, adding colour/s, as well as sealing the area with a protective/durable coating in-situ. The system combines colour, surface hardeners combined with an acrylic sealer, and release agents with three-dimensional texturing tools to create remarkable designs.

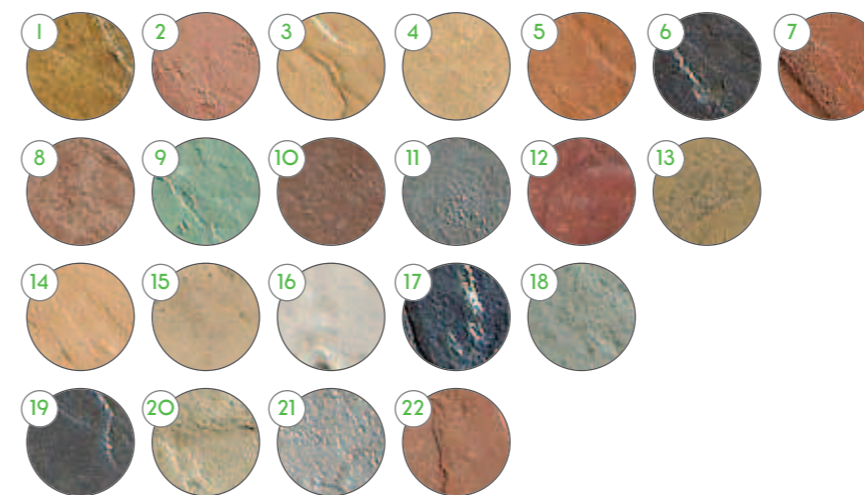

Designed to re-create many affects such as slate tiles, stone flags, old cobble stone, granite and even block paving although in using our combined ideas imagination as well as combining different patterns and colours, many special effects and/or individual creations can be created.

Patterned imprinted concrete is by far the most superior paving system on the market and with minimal maintenance will last a lifetime.

Impress Paving use only the highest quality materials which conform to British Standards. The concrete formulation contains metal fibred mesh reinforcement which once sealed is 25% stronger than normal concrete.

made to measure in a choice of colour options

key benefits of pattern imprinted concrete...

- No sinking, spreading, weeds
- Oil and stain resistant
- Colours do not fade
- Minimal maintenance
- Variety of colours & patterns available
- When sealed, surface is 25% stronger than standard concrete
- Durable & robust
- Non-slip coating available
